

PURE BOTANICA OILS

Company Profile

A sourcing and export partner for botanical ingredients used by natural skincare, aromatherapy, cosmetics and private-label brands.

SUPPLIER PROFILE - 2026

Our position

Pure Botanica Oils supplies organic essential oils, distinctive Chinese botanical oils and carrier oils to professional buyers. We focus on traceable sourcing, batch documentation, practical MOQ routes and clear export communication.

Core capabilities

Botanical sourcing and selection; steam distillation and extraction coordination; batch identity and composition testing; light-protective bulk packaging; OEM and private-label project support; international shipment documentation.

Buyer support model

01	Qualification	Product fit, specification and required quality documents.
02	Evaluation	Sample route, current batch data and application discussion.
03	Commercial alignment	MOQ, packaging, destination, Incoterm and lead time.
04	Release and shipment	Batch-linked files, packing confirmation and export coordination.

Markets and customers

We support essential oil importers, natural skincare brands, aromatherapy companies, cosmetic manufacturers, contract manufacturers and private-label brands serving the USA, Europe, Japan and other international markets.

Verification principle

Certificate status, scope, batch conformance and commercial suitability must be verified against current original documents and the exact quoted lot. Sample files demonstrate format only.
